➤ HOW TO CARE FOR YOUR PRODUCT

If unlacquered brass is an organic material and will respond to its environment. Spots and marks will form, but over time they will fade and self-correct. With use, the characteristic of brass will develop and it may take up to a year to acquire a full patina. To maintain the appearance of the patinated brass use Carnauba Wax. Rub in sparingly with a soft, lint-free cloth. Wipe off excess with a second cloth. Brass will discolour if ferrous metals such as steel are placed on it for long periods of time.

If the brass is lacquered, wipe down evenly with a lint-free cloth. For cleaning use a mild soap (e.g. Fairy) on a well wrung-out lint-free cloth.

Any marks on the steel are to be removed with a dry cloth and any spillages are to be dried immediately as moisture can cause rust. To maintain the appearance of the steel use Carnauba Wax. Rub in sparingly with a soft, lint-free cloth. Wipe off excess with a second cloth.
